OBJECTIVE

Full Stack Developer with hands-on experience in enterprise ERP/CRM systems and mobile app development. Proficient in React ecosystem, React Native, and modern backend technologies. Demonstrated expertise in building scalable applications, API integration, and performance optimization. Strong background in GenAI-powered solutions and cross-platform mobile development.

SKILLS

Frontend Technologies	React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, GSAP
Mobile Development	React Native, Expo, Cross-platform Development
Backend Technologies	Node.js, Express.js, REST APIs, MongoDB, MySQL, Convex DB, Appwrite
Development Tools	Git, GitHub, Firebase, Vercel, Postman, VS Code, Figma
Specialized Skills	AI Integration, Responsive Design, UI/UX Design, Performance Optimization
Soft Skills	Team Collaboration, Problem Solving, Project Management, Agile Development

EXPERIENCE

Frontend Developer Intern — Jan 2025 - June 2025
Parthvitech Innovatives LLP — *Vadodara, Gujarat*

- Spearheaded frontend development of enterprise ERP, CRM, and HRM systems serving 500+ users using React.js and Tailwind CSS
- Optimized application performance by 40% through efficient API integration and code splitting techniques
- Collaborated with cross-functional teams of 5+ developers to deliver scalable, maintainable UI components
- Implemented responsive design principles ensuring 100% mobile compatibility across all platforms
- Reduced backend server load by 25% through strategic frontend caching and state management optimization
- Led frontend development of ERP, CRM, and HRM systems using React and Tailwind CSS.
- Integrated REST APIs and optimized frontend performance to reduce backend load.
- Collaborated with backend teams to ensure scalable, logic-driven UI components.

PROJECTS

Habiyo - Habit Tracker Mobile Application — *React Native, Expo, Appwrite*

- Developed a cross-platform habit tracking mobile application with user authentication and data synchronization
- Implemented real-time habit progress tracking, streak counters, and achievement systems using Appwrite backend services
- Designed clean and intuitive user interface with responsive design principles for optimal mobile experience
- Built core functionality including habit creation, progress tracking, and data persistence using Appwrite services
- [Download APK — Source Code](#)

Anonova - Anonymous Messaging Platform — *Next.js, TypeScript, MongoDB, Gemini AI*

- Built a secure real-time anonymous messaging application with AI-powered message suggestions using Next.js and TypeScript
- Integrated Google Gemini AI API for intelligent content generation and message enhancement features
- Implemented robust user authentication and data validation using MongoDB and custom middleware
- Deployed scalable solution handling concurrent users with optimized database queries and caching strategies

- Live Demo — Source Code

Zuno - AI-Powered Web Application Builder   *Next.js, Convex DB, Gemini AI*

- Created an intelligent chat-based web application builder that converts natural language prompts into deployable full-stack applications
- Integrated Sandpack for real-time code preview, editing, and export functionality with live compilation
- Implemented Convex DB for real-time data synchronization and Google Gemini AI for code generation and optimization
- Built comprehensive project management system with version control and deployment pipeline integration
- Live Demo — Source Code

EDUCATION

Bachelor of Computer Applications (BCA)   2022 - 2025
Maharaja Sayajirao University of Baroda   *Vadodara, Gujarat*
Relevant Coursework: Data Structures, Algorithms, Database Management, Software Engineering, Web Technologies

EXTRA-CURRICULAR ACTIVITIES

- Passionate about AI and Web3 technologies; continuously explore innovations and experiment with emerging tech.

LEADERSHIP

- Collaborated closely with development teams during internship; contributed to feature decisions and performance optimizations.
